

# Project Management Tools for Data Career Roles

MODULE 1: LESSON 7  
LEARNING WITH JELLY

# Agenda

01

**Project  
Management**

02

**Project  
Management Tools**

03

**Additional  
Resources**

# Project Management

# Project Management

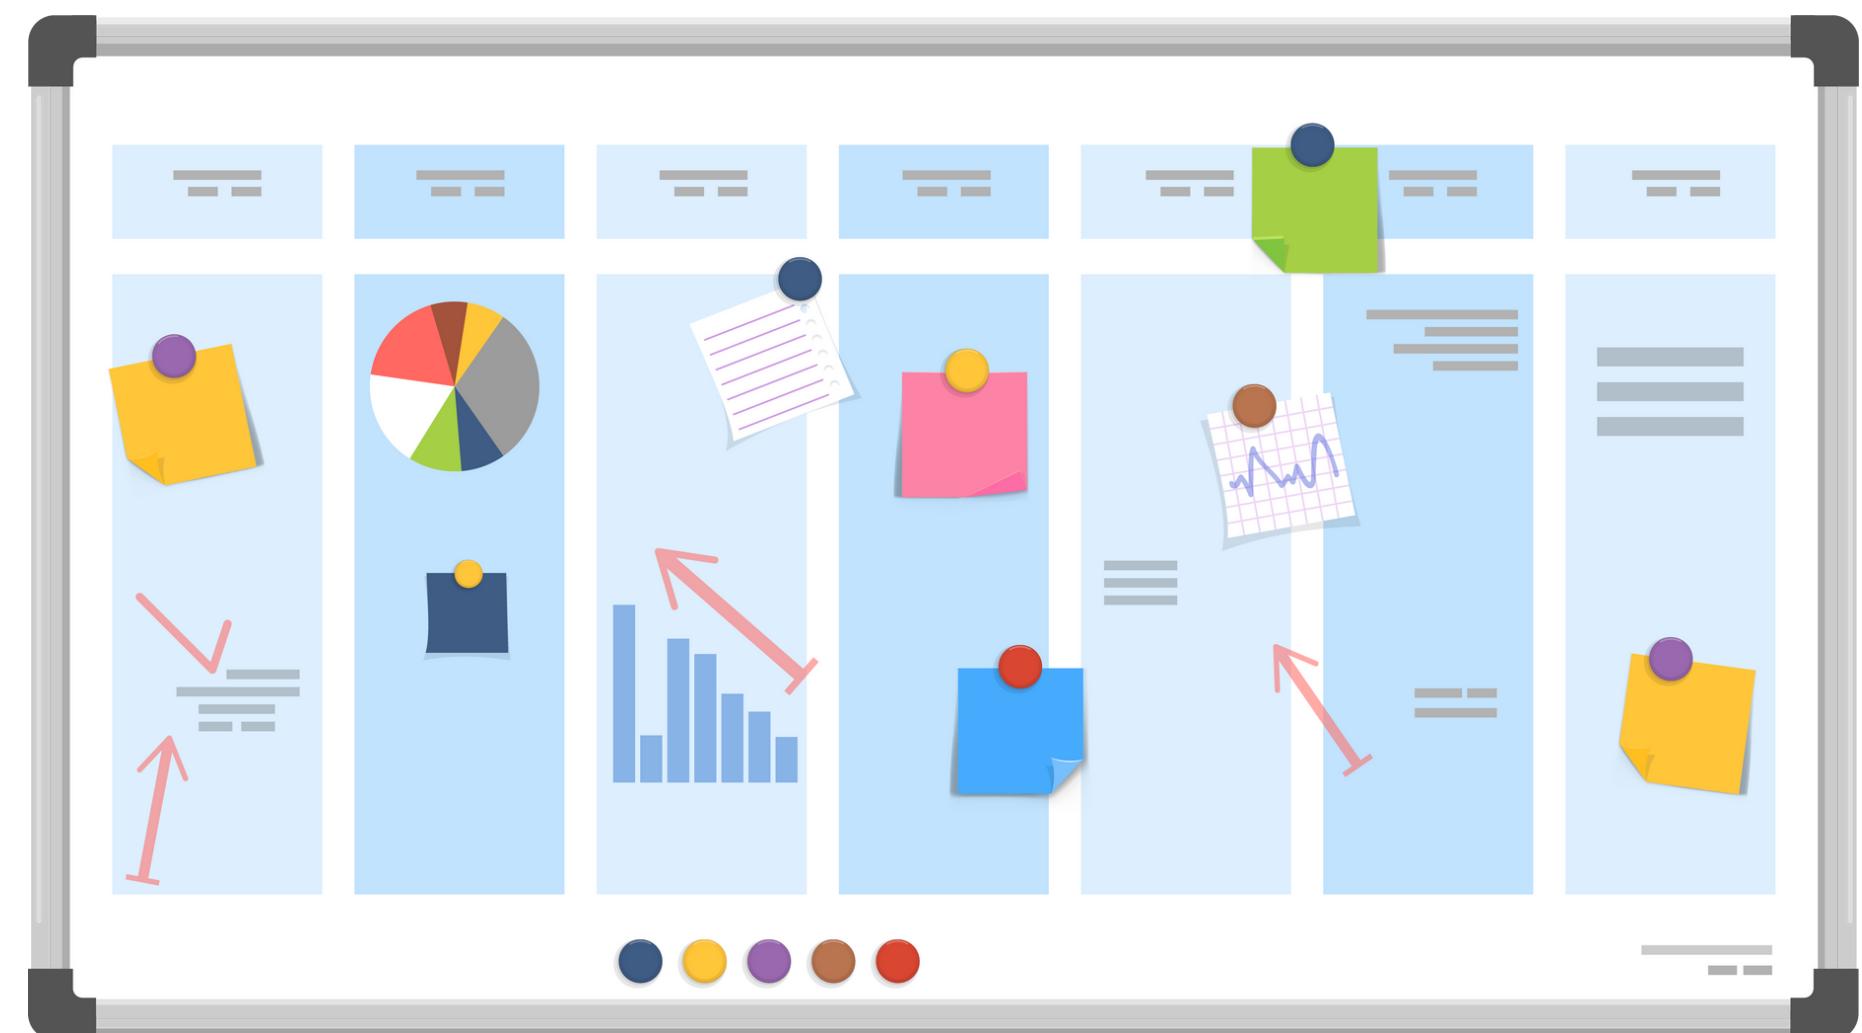

- Using specific knowledge and skills to lead others to achieve project goals **within certain constraints**
- Essential across many industries including Data Analytics and Data Science Projects
- Questions to Consider:
  - What is the business goal and stakeholders involved?
  - What is the time and costs constraints?
  - What resources do I have (labor, money, software etc.)?
  - How do I evaluate and prepare for 'risks'?
  - and more!

# Project Management Tools

- Airtable
- Notion
- Jira
- Monday
- Trello
- Github Pages
- More!

**TO DO, IN PROGRESS, DONE**

# Notion demo
