

# Getting Started with Google Colab

MODULE 1 : LESSON 2  
LEARNING WITH JELLY

# Agenda

01

**What is Google Colab?**

02

**Privacy of Google Colab**

03

**Demo the Interface**

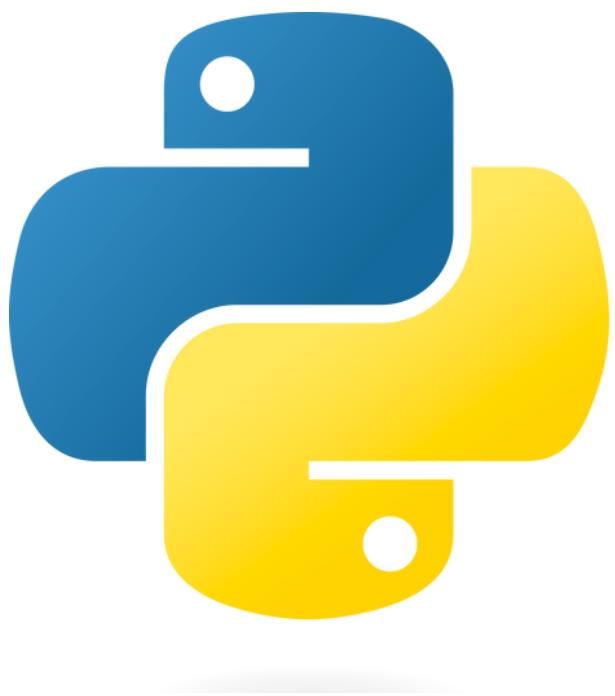

# What is Google Colab?

# Google Colab (Colaboratory)

- Free Product from Google Research
- Allows user to create/share Jupyter notebooks
- Jupyter is open-source and allows a user to create interactive coding notebooks (Python)

Can download [Anaconda](#) in place of Google Colab (link in description)

colab

# Privacy/Security

# Privacy/Security

- Notebooks are stored on Google Drive
- Can share with others (email or link)
- As safe as a Google Doc
- Great for personal use

The background features a dark blue gradient with a subtle grid pattern. Overlaid on this are several large, semi-transparent orange and pink spheres of varying sizes.

# Demo

# Demo - Dive into the Interface

colab

A dark blue background featuring a subtle 3D grid pattern. Overlaid on the grid are several large, semi-transparent orange spheres of varying sizes. In the center, the words "Thank You!" are written in a large, bold, white sans-serif font. Below it, "@LearningwithJelly" is written in a slightly smaller, regular white sans-serif font.

Thank You!

@LearningwithJelly
